## 3 INSTALLATION

## 4 INSTRUCTION FOR USE

## 5 EXAMPLE OF USE

**ENGLISH**

The instruction manual for this device consists of general and specific instructions, both must be carefully read and understood before use. **Attention!** This leaflet shows the specific instruction only.

**SPECIFIC INSTRUCTIONS HOOK REST.**  
 This note contains the necessary information for a correct use of the following product/s: Hook Rest, connector supports for harness.

**1) FIELD OF APPLICATION.**  
 Hook Rest supports are not Personal Protective Equipment (PPE) and they

**1) CAMPO DI APPLICAZIONE.**  
 I supporti Hook Rest non sono dei dispositivi di protezione individuale (D.P.I.) e non sono progettati per sostenere il peso dell'utilizzatore. **Attenzione!** Un errore può avere conseguenze estremamente gravi, qualsiasi modalità di montaggio e utilizzo diverso da quanto indicato è da considerarsi vietata.  
**2) NOMENCLATURA** (Fig. 2). A) Corpo.  
**2.1 - Materiali principali.** Consultare la legenda nelle istruzioni generali (paragrafo 2.4): 7.  
**3) MARCATURA.**  
 Numeri/lettere senza didascalia: consultare la legenda nelle istruzioni generali (paragrafo 5).  
**3.1 - Generale** (Fig. 2). Indicazioni: 1; 4; 7; 8; 10; 30) Simbolo indicante che il materiale è riciclabile.  
**3.2 - Tracciabilità** (Fig. 2). Indicazioni: 31) Datario indicante mese e anno di fabbricazione.  
**4) COMPATIBILITÀ.**  
 I supporti Hook Rest sono compatibili solo con le seguenti imbracature a marchio Climbing Technology: Axxess QR, Axxess QR Ascender, Work Tec, Work Tec QR, Work Tec 140. **Attenzione!** Prima di utilizzare l'imbracatura su cui verranno installati i supporti Hook Rest, assicurarsi di aver letto e compreso le istruzioni generali e specifiche che devono obbligatoriamente accompagnare ogni imbracatura.  
**5) ISTRUZIONI D'USO.**  
 I supporti Hook Rest sono destinati esclusivamente al posizionamento dei moschettoni di un cordino anticaduta quando l'intero dispositivo (Fig. 4.1) o il ramo interessato (Fig. 5) non sono utilizzati. I supporti Hook Rest sono progettati per rilasciare il connettore se sottoposto a un carico superiore a qualche chilogrammo, in modo da non interferire con l'apertura dell'assorbitore di energia in caso di caduta (Fig. 4.3).  
**5.1 - Installazione / rimozione.** Inserire il supporto Hook Rest come indicato (Fig. 3.2) all'interno dell'apposita fettuccia (Fig. 3.1) presente sui modelli di imbracatura compatibili. Per la rimozione eseguire la sequenza al contrario.

**FRANÇAIS**

Les instructions d'utilisation de ce dispositif comprennent une partie générale et une partie spécifique, lesquelles doivent toutes les deux être lues attentivement avant utilisation. **Attention !** La présente fiche ne contient que les instructions spécifiques HOOK REST.

**INSTRUCTIONS SPÉCIFIQUES HOOK REST.**  
 Cette note contient les informations nécessaires à l'utilisation correcte du produit/s suivant/s : supports pour les harnais Hook Rest.

**1) CHAMP D'APPLICATION.**  
 Les supports Hook Rest ne sont pas des équipements de protection individuelle (EPI) et n'ont pas été réalisés pour soutenir le poids de l'utilisateur. **Attention !** Une erreur peut avoir des conséquences extrêmement graves, n'importe quel montage ou usage différent de ce qui est indiqué ici est à bannir.  
**2) NOMENCLATURE** (Fig. 2). A) Corps.

**2.1 - Matériaux principaux.** Consulter la légende dans les instructions générales (paragraphe 2.4): 7.  
**3) MARQUAGE.**

Chiffres/lettres sans légende : consulter la légende dans les instructions générales (paragraphe 5).  
**3.1 - Général** (Fig. 2). Indications : 1 ; 4 ; 7 ; 8 ; 10 ; 30) Symbole qui indique que le matériel peut être recyclé.

**3.2 - Traçabilité** (Fig. 2). Indications : 31) Horodatage indiquant le mois et l'année de fabrication.  
**4) COMPATIBILITÉ.**

Les supports Hook Rest sont compatibles seulement avec les harnais suivant produits par Climbing Technology: Axxess QR, Axxess QR Ascender, Work Tec, Work Tec QR, Work Tec 140. **Attention !** Avant d'utiliser le harnais sur lequel les supports Hook Rest seront installés, s'assurer d'avoir lu et compris les instructions générales et spécifiques qui doivent obligatoirement accompagner chaque harnais.

**5) INSTRUCTIONS D'UTILISATION.**  
 Les supports Hook Rest sont destinés exclusivement au positionnement des mousquetons d'une cordelette anticadute quand le dispositif dans sa totalité (Fig. 4.1) ou la partie intéressée (Fig. 5) ne sont pas utilisés. Les supports Hook Rest sont réalisés pour relâcher le connecteur au cas où il soit soumis à une charge supérieure à quelques kilos, de façon à ne pas interférer avec l'ouverture de l'absorbeur d'énergie en cas de chute (Fig. 4.3).

**5.1 - Installation / Enlèvement.** Insérer le support Hook Rest comme indiqué (Fig. 3.2) à l'intérieur de sa sangle (Fig. 3.1) présente sur les modèles de harnais compatibles. Pour l'enlèvement suivre les instruction en sens contraire.

**DEUTSCH**

Die Gebrauchsanweisung zu diesem Produkt setzt sich aus einem allgemeinen und einem spezifischen Teil zusammen, wobei beide Teile vor der Verwendung des Produkts genau durchgelesen werden müssen. **Achtung!** Dieses Blatt enthält nur den allgemeinen Teil der Anleitung.

**SPECIFISCHE ANWEISUNGEN HOOK REST.**  
 Diese Anmerkung enthält die notwendige Informationen für einen korrekten Gebrauch des folgenden Produktes/e: Halterungen für den Gurt Hook Rest.

**1) ANWENDUNGSBEREICH.**  
 Die Halterungen Hook Rest gehören nicht zur persönlichen Schutzausrüstung (PSA) und wurden nicht entworfen, um das Gewicht des Benutzers zu halten. **Achtung!** Fehlerhaftes Verwenden kann äußerst schwerwiegende Folgen haben, jegliche andere als hier angegebene Anbringung und Verwendung ist verboten.

**2) NOMENKLATUR** (Abb. 2). A) Körper.  
**2.1 - Wesentlichen Materialien.** Die Legende in der allgemeine Gebrauchsanweisungen lesen (Absatz 2.4): 7.

**3) MARKIERUNG.**  
 Zahlen / Buchstaben ohne Bildunterschriften: die Legende in der allgemeine Gebrauchsanweisungen lesen (Absatz 5).

**3.1 - Allgemeine** (Abb. 2). Angaben: 1; 4; 7; 8; 10; 30) Symbol, das anzeigt, dass das Material recycelbar ist.

**3.2 - Rückverfolgbarkeit** (Abb. 2). Angaben: 31) Zeitstempel für Monat und Jahr der Herstellung.  
**4) KOMPATIBILITÄT.**

Die Halterungen Hook Rest passen nur auf die folgenden Gurte der Marke Climbing Technology: Axxess QR, Axxess QR Ascender, Work Tec, Work Tec QR, Work Tec 140. **Achtung!** Vor der Anwendung des Gurts, an dem die Halterungen Hook Rest installiert werden, sicherstellen, dass die allgemeinen und spezifischen Gebrauchsanweisungen gelesen und verstanden werden. Beide Gebrauchsanweisungen müssen jedem Gurt beiliegen.

**5) GEBRAUCHSANWEISUNG.**  
 Die Halterungen Hook Rest dienen ausschließlich der Positionierung der Karabiner einer Auffangvorrichtung, wenn das gesamte Gerät (Abb. 4.1) oder der jeweilige Arm (Arm. 5) nicht verwendet wird. Die Halterungen Hook Rest haben ein Design, welches das Verbindungselement freigibt, falls es mehreren Kilogramm an Belastung ausgesetzt wird. Auf diese Weise interferieren

are not designed to support the weight of the user. **Attention!** An error can lead to extremely serious consequences, any installation method and use different from what indicated is to be considered forbidden.

**2) NOMENCLATURE** (Fig. 2). A) Body.  
**2.1 - Main materials.** Refer to the legend in the general instructions (paragaph 2.4): 7.

**3) MARKING.**  
 Numbers/letters without caption: refer to the legend in the general instructions (paragaph 5).

**3.1 - General** (Fig. 2). Indications: 1; 4; 7; 8; 10; 30) Symbol indicating that the material is recyclable.

**3.2 - Traceability** (Fig. 2). Indications: 31) Timestamp indicating month and year of manufacture.  
**4) COMPATIBILITY.**

Hook Rest supports are only compatible with the following Climbing Technology harnesses: Axxess QR, Axxess QR Ascender, Work Tec, Work Tec QR, Work Tec 140. **Attention!** Before using the harness that is going to be equipped with Hook Rest supports, make sure you have read and understood both the general and specific instructions that must accompany each harness.

**5) INSTRUCTIONS FOR USE.**  
 Hook Rest supports have been designed exclusively for the attachment of the carabiners of a fall arrest lanyard when the equipment as a whole (Fig. 4.1) or an arm of it (Fig. 5) are not in use. Hook Rest supports are designed to release the connector when it undergoes a load greater than a few kilograms, in order not to interfere with the opening of the energy absorber in the case of a fall (Fig. 4.3).

**5.1 - Installation / removal.** Install Hook Rest support as shown (Fig. 3.2) by threading it through the specific strap (Fig. 3.1) available on all compatible harness models. To remove the connector, follow the procedure's steps in reverse order.

**5.1 - Installation / removal.** Install Hook Rest support as shown (Fig. 3.2) by threading it through the specific strap (Fig. 3.1) available on all compatible harness models. To remove the connector, follow the procedure's steps in reverse order.
